

Post Graduate in Artistic Therapy 2025

This is a unique opportunity to study in depth the Hauschka approach to Anthroposophic Artistic Therapy deepened by the work of Eva Mees-Christeller (founding director of de Wervel in Holland). You will learn from artist, artistic therapist and teacher, Margaret-Mary Farr who studied directly with Eva Mees-Christeller and who has over 38 years of experience in private practice.

This programme will run over three and a half years and will consist of 9 intensive 5-day seminars at the Kairos Studio, six *4 hour Zoom sessions, and an additional 15-20 hours per week individual study and artistic practice from home for the duration of the course.

The Post Graduate Diploma will give you a good foundation to work practically with the therapy tools in your sphere of work, or just be inspired to create. Anyone with artistic experience with an understanding of the anthroposophic world view and an interest in artistic therapy will be considered.

This course will be based in Hastings, Hawkes Bay, New Zealand. This course is run by Margaret-Mary Farr founding director for Kairos Anthroposophic Artistic Therapy Training along with a small group of experienced and knowledgeable guest tutors.
